

Sciences and Technologies for the Earth and the Environment

Seminars 2023-2024

22-Nov-23, 14.30

Lecture Hall C-T.08

Quantitative microstructural analysis of rocks and artifacts

Gaetano Ortolano

University of Catania

13-Feb-24, 14.30

Perrier Lecture Hall

Seismic-scale geometries and sequence-stratigraphic architecture of early cretaceous syn-post rift lacustrine carbonate systems, pre-salt section, south Atlantic margins

Alessandro Cantelli

Senior Geologist –
Exploration Shell
Brasil

01-Mar-24, 14.00

The biological implications of failing international climate commitments

Moreno Di Marco

University of Roma "La
Sapienza

15-Mar-24, 14.00

Bio-geo interaction in mining-impacted environments

Patrizia Onnis

University of Cagliari

22-Mar-24, 14.00

The role of ethnobiology in biodiversity conservation

**Ulysses Paulino de
Albuquerque**

Federal University of
Pernambuco

05-Apr-24, 14.00

Forest microclimates and adaptation to climate change

Jonathan Lenoir

University of Picardie

08-Apr-24, 14.00

Phase diagrams and thermoelastic properties of planet-forming materials: a key to understanding planetary diversity

Daniele Antonangeli

IMPMC, Sorbonne
University, Paris

19-Apr-24, 14.00

Conservation Paleobiology: the fossil record at work for future biodiversity

Silvia Danise

University of Florence

Seminars will be held on microsoft teams platform and without participation fee. To participate, please, fill in the online registration form at: <https://forms.office.com/e/2BiFGY0iD2>

 Only in presence
